

## Access immunisation information

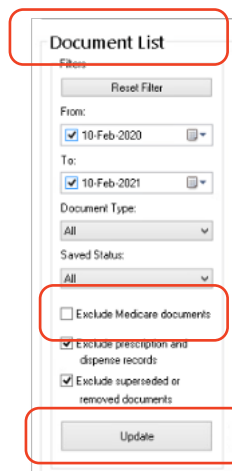

**Note:** These steps assume that your software is connected to the My Health Record system, the patient has a My Health Record and their Individual Healthcare Identifier (IHI) has been validated in your system.

While some immunisation information may be available in the patient's shared health summary or an event summary, this may not include vaccinations provided at other sites or clinics. For a more complete list of immunisations, access the Australian Immunisation Register via the Medicare Overview.

- To access the patient's My Health Record, either:
  - select **My Health Record > View Document list** from the drop-down menu; or
  - click on the **My Health Record** button

- Go to the **Document List**

- Untick **Exclude Medicare documents**
- Then **Update** to refresh selection

- Double-click on the **Medicare Overview - all**

Document Date	Service Date	Document	Organisation	Organisation Type	Saved
10/02/2021		Medicine View	My Health Record	Provision and administration of	Not Saved

26 Feb 2020 19:19:00+1100	00023	CONSULTATION AT CONSULTING ROOMS LEVEL B	TERRANCE WALKER	No

**Note:** The Australian Immunisation Register was expanded to include adult immunisations in September 2016, so any adult immunisations given prior to then will not be listed. The childhood version of the Australian Immunisation Register started in 1996, so younger people will have their childhood immunisations listed.
