

Accessing immunisation information

Note: These steps assume that your software is connected to the My Health Record system, the patient has a My Health Record and their individual healthcare identifier (IHI) has been validated in your system.

- To gain access to the patient's My Health Record, either:
 - select **My Health Record > View Document list** from the menus; or
 - click on the **My Health Record** button.

- Immunisation Consolidated View** appears within the document list. Double-click to open and view the document.

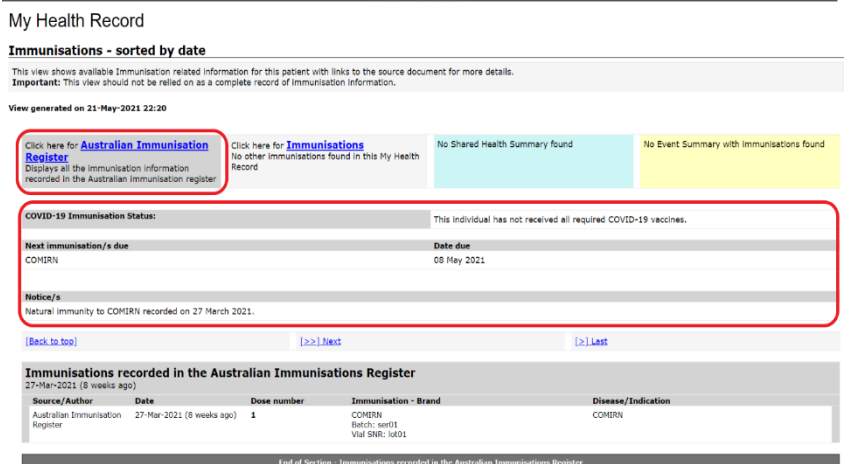

- The **Immunisation Consolidated View** will display with the **Australian Immunisation Register** tab displayed by default. Details of a patient's immunisation status including details of next immunisation(s) will also be displayed if recorded in AIR.

The COVID-19 Immunisation Status field displays as:

- 'This individual has **not** received all required COVID-19 vaccines.' if someone has had only one vaccine; or
- 'This individual has received all required COVID-19 vaccines.'

If no COVID-19 vaccines have been received, the status isn't displayed.

If there is additional information recorded in the AIR, this is displayed in a **Notices** section. This may include details about immunisation exemptions or participation in vaccine trials.

- Click on the **Immunisations** tab to access available immunisation information recorded in the Australian Immunisation Register and held in any shared health summaries or event summaries in a patient's My Health Record.

Note: You can click on any hyperlinks within the immunisations list to view the original source document.

Source/Author	Date	Dose number	Immunisation - Brand	Disease/Indication
Australian Immunisation Register	19-Feb-2021 (2 months ago)	1	Cominaty	Cominaty
Event Summary by DHSSAPS	04-Aug-2020 (9 months ago)	1	Cholera	
Event Summary by Test Health Service 743	13-May-2014 (7 years ago)	1	Fluvax	
Event Summary by Dun Immunisation	10-May-2013 (8 years ago)	0	Fluvax	

- From this view you can also access the most recent shared health summary and event summary that contains immunisation information.

Immunisations - sorted by date

This view shows available Immunisation related information for this patient with links to the source document for more details.
Important: This view should not be relied on as a complete record of immunisation information.

View generated on 17-May-2021 13:14

Note: The Australian Immunisation Register was expanded to include adult immunisations in September 2016, so any adult immunisations given prior to then will not be listed. The childhood version of the Australian Immunisation Register started in 1996, so younger people will have their childhood immunisations listed.
