COVID-19 vaccination dashboard

This dashboard shows information from the Australian Immunisation Register and documents in My Health Record that may be useful for your COVID-19 vaccination. It may help you answer questions or fill in paperwork for your vaccination.

Vaccinations

1. 1st dose

1st dose of Pfizer Comirnaty administered on

20 Oct 2021.

2. 2nd dose

2nd dose of Pfizer Comirnaty administered on

01 Dec 2021.

3. Booster dose

Booster dose is recommended by

08 Feb 2022.

[Make a booking](#)

If you're severely immunocompromised, check with your healthcare provider.

4. Proof of vaccination

[View immunisation history statement](#)

[View COVID-19 digital certificate](#)

Warning icon

Not feeling well after your COVID-19 vaccination?

Use the [vaccine side effect checker](#) if you are worried about any symptoms after your COVID-19 vaccination.

If you have an adverse reaction to the COVID-19 vaccine, report it to your healthcare provider. You may also [report it to the TGA](#).

International travel

You may need an International COVID-19 Vaccination Certificate to show proof of your vaccinations if travelling overseas. Find out [how to get an international certificate](#).

Health information

Information about your health that you may need to provide when you are having your COVID-19 vaccination.

History of anaphylaxis

Tell your vaccination provider about any anaphylactic reactions to medications or vaccines.

Warning icon

Tell your vaccination provider you have been prescribed an adrenaline autoinjector (such as an EpiPen or Emerade).

Substance	Reaction
Aloes - chemical (substance)	Anaphylaxis
Amines	Anaphylaxis
Penicillin allergy	Anaphylaxis

[View allergies and adverse reactions](#)
