

Request for pathology report not to be sent to My Health Record

Note:

Your patient may wish for certain pathology reports not to be submitted to My Health Record. We encourage you to discuss this with your patient. This will not affect your current business process of requesting and receiving pathology reports, it simply stops the information being sent to your patient's My Health Record.

1. In Pathology Request, tick **Do not send to My Health Record**.

The screenshot shows the 'Pathology request' form. At the bottom, there are two checkboxes: 'Add an entry to the actions database' and 'Do not send to My Health Record'. The 'Do not send to My Health Record' checkbox is highlighted with a red rectangle. Other visible fields include 'Request date: 12/09/2017', 'Laboratory: Network Pathology', 'Favourite tests' (with 'HDL Cholesterol' checked), 'Clinical details' (with 'Fasting' and 'Non Fasting' options), and 'Billing' (with 'Private' selected).
