

# Accessing Immunisation Information

*Note: These steps assume that your software is connected to the My Health Record system, the patient has a My Health Record and their individual healthcare identifier (IHI) has been validated in your system*

## STEP 1:

To gain access to the patient's My Health Record, either:

- Select **My Health Record** tab, then **View Document List** from the drop-down menu; or
- Click on the **My Health Record** button.

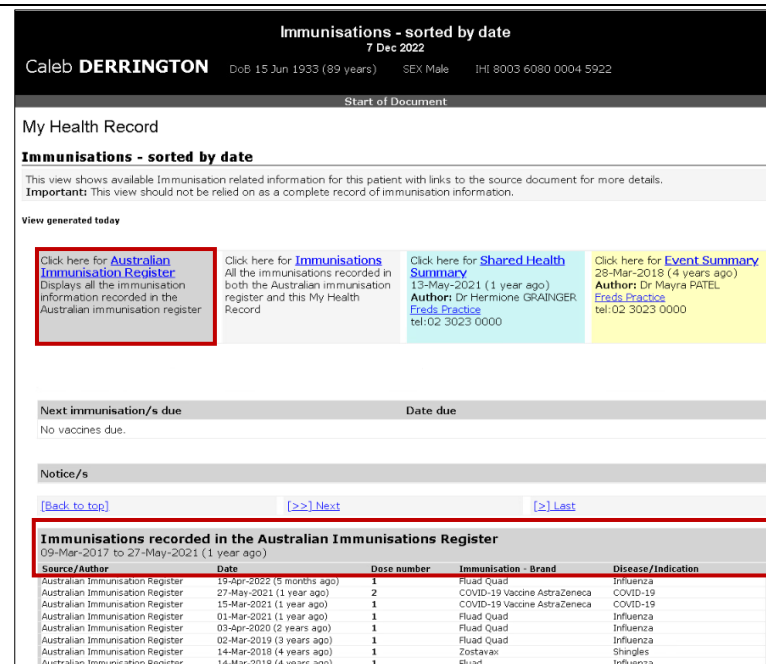

## STEP 2:

The **Immunisation Consolidated View** appears within the document list. Double-click to open and view the document.

## STEP 3:

The **Immunisation Consolidated View** will open with the **Australian Immunisation Register** tab displayed first by default.

Details of the patient's immunisations as recorded in the **Australian Immunisation Register (AIR)** will be displayed here.

Information will include the date of administration, dose number, brand administered and disease/indication.

**Next immunisation/s due** section will display to alert clinicians if the patient is due for a vaccination.

If there is additional information recorded in the AIR, this is displayed in a **Notice/s** section. This may include details about immunisation exemptions.

A National Immunisation Program (NIP) Status may also display for patients receiving immunisations under the program with corresponding text to confirm if the patient is up to date with recommended vaccines.

**STEP 4:**

For additional information, click on the **Immunisations** tab to access available immunisation information recorded in AIR as well as information held in any shared health summaries or event summaries in a patient's My Health Record.

You can click on any hyperlinks within the immunisations list to view the original source document.

From this view you can also access the most recent **shared health summary** and **event summary** that contain immunisation information.

For upcoming training opportunities, visit Events and Webinars: <https://www.digitalhealth.gov.au/newsroom/events-and-webinars>
