

Request a pathology report not be sent to My Health Record

If your patient does not want a pathology report uploaded to My Health Record, the pathology laboratory should be notified by completing the steps below. This will not affect your current business process of requesting and receiving pathology reports, it simply stops the information being sent to your patient's My Health Record on this occasion. We encourage you to discuss this with your patient as having access to test results in their My Health Record may improve their future healthcare.

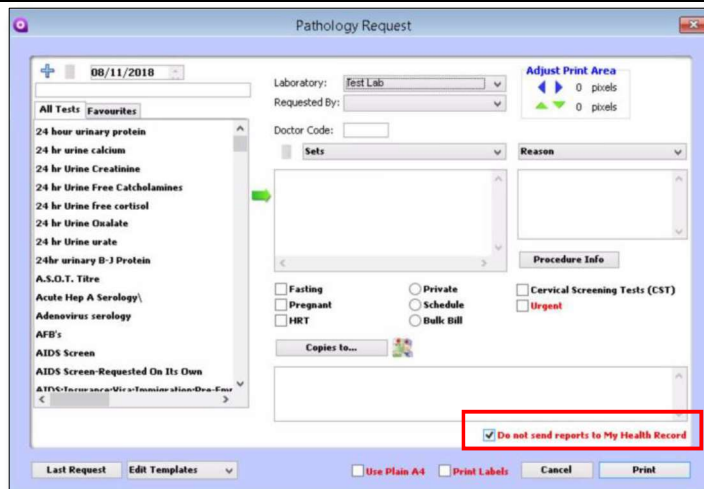

STEP 1:

Select **Order Pathology** from the top menu (top-left corner).

STEP 2:

In the Pathology Request screen, tick the **Do not send to My Health Record** box in the bottom right of the window.
