

Accessing the Medicines Information View

Note: These steps assume that your software is connected to the My Health Record system, the patient has a My Health Record and their Individual Healthcare Identifier (IHI) has been validated in your system.

1. To access to the patient's My Health Record, select **Open My Health Record > View Health Record Overview** from the ribbon menu.

2. Scroll down and click on the **Patient Document List** shortcut button.

3. The **Patient Document List** will display. To ensure the most recent documents are displayed at the top of the list, click on the sort arrow next to **Document Date**. Double-click to the **Medicines View** to open it.

4. The **Medicines View** will display available medicines and allergy information held in a patient's My Health Record with the **Allergies and Adverse Reactions tab** displayed by default.

To view a patient's medicines information, click on the **Medicines Preview**.

My Health Record

Default selection

Click on Medicines Preview to view medicines information

Available medicines in this My Health Record - sorted by Medicines
