

Stop a prescription record being uploaded to My Health Record

Note: These steps assume that your software is connected to the My Health Record system, the patient has a My Health Record and their individual healthcare identifier (IHI) has been validated in your system

STEP 1: Click on the Prescribe Medication icon at the top of the client file.	
STEP 2: When prescribing a medication, to stop a prescription record being uploaded to My Health Record, untick the box titled “Consent to send to My Health Record” on the Prescription Details screen.
