

Accessing immunisation information

Note: These steps assume that your software is connected to the My Health Record system, the patient has a My Health Record and their individual healthcare identifier (IHI) has been validated in your system.

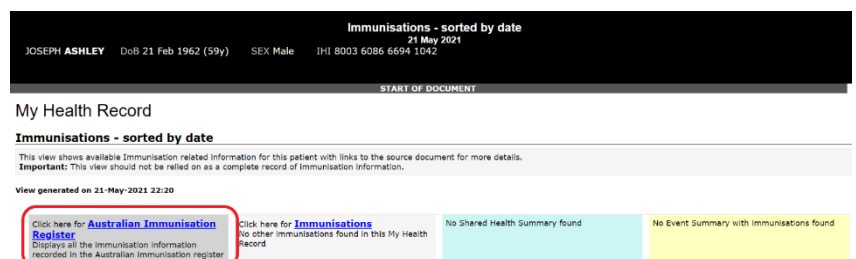

- To access the patient's My Health Record, select the **My Health Record** tab.

- Click **View Document List** to refresh the list. Then double-click to open **Immunisation Consolidated View**.

- The **Immunisation Consolidated View** will display with the **Australian Immunisation Register** tab displayed by default. Details of a patient's immunisation status including details of next immunisation(s) will also be displayed if recorded in AIR.

The COVID-19 Immunisation Status field displays as:

- ‘This individual has **not** received all required COVID-19 vaccines.’ if someone has had only one vaccine; or
- ‘This individual has received all required COVID-19 vaccines.’

If no COVID-19 vaccines have been received, the status isn’t displayed.

If there is additional information recorded in the AIR, this is displayed in a **Notices** section. This may include details about immunisation exemptions or participation in vaccine trials.

COVID-19 Immunisation Status:	This individual has not received all required COVID-19 vaccines.
Next immunisation/s due	Date due
COMIRN	08 May 2021
Notice/s	
Natural immunity to COMIRN recorded on 27 March 2021.	

4. Click on the **Immunisations** tab to access available immunisation information recorded in the Australian Immunisation Register and held in a patient’s My Health Record (such as in an event summary or a shared health summary).

Note: You can click on any hyperlinks within the immunisations list to view the original source document.

Note: The Australian Immunisation Register was expanded to include adult immunisations in September 2016, so any adult immunisations given prior to then will not be listed. The childhood version of the Australian Immunisation Register started in 1996, so younger people will have their childhood immunisations listed.
