

# Accessing Prescription and Dispense View

*Note: These steps assume that your software is connected to the My Health Record system, the patient has a My Health Record and their individual healthcare identifier (IHI) has been validated in your system*

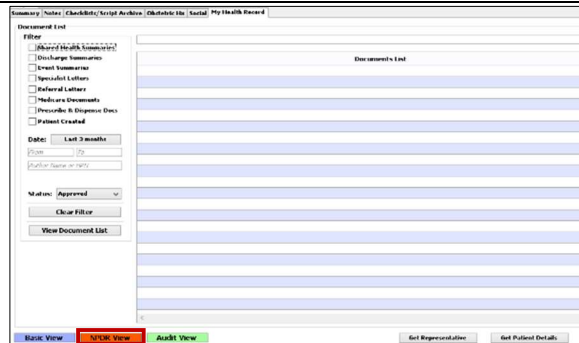

## STEP 1:

To access the patient's My Health Record, select the **My Health Record** tab.

## STEP 2:

At the bottom of the document list window, click **NPDR View** (National Prescription and Dispense Repository).

## STEP 3:

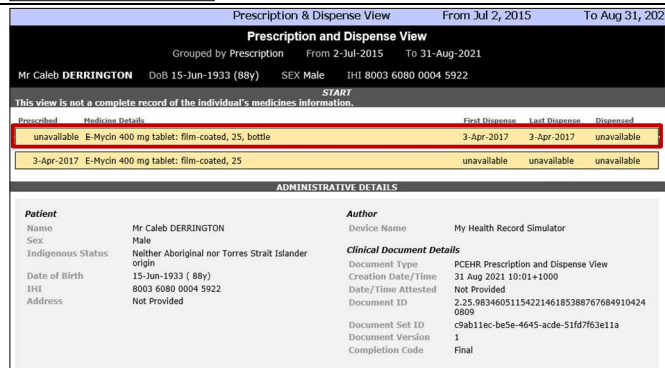

Within the **My Health record Views** window, change the **View Type** option to **Prescription and Dispense**.

Then select **Get View**.

## STEP 4:

The **Prescription and Dispense View** will appear in a collapsed view. For more details about the medication, click to expand the view.

## Accessing Prescription and Dispense View continued

### STEP 5:

Click on the medication details to view full details of the **Prescription or Dispense Record**.

**Prescription and dispense records** contain information about medicines prescribed and dispensed by a healthcare provider. This view can display the name of a medicine (both the brand name as well as the active ingredients), the strength of the medicine, the directions and the form of the medicine prescribed. It can also display the date a medicine has been prescribed, the date it has been dispensed, and the number of repeats available on the prescription.
