

Accessing Immunisation Information

Note: These steps assume that your software is connected to the My Health Record system, the patient has a My Health Record and their individual healthcare identifier (IHI) has been validated in your system

Option 1: for users of Genie configured via the [NASH method](#) (General Practitioners).

STEP 1:

To access a patient's My Health Record, open the patient's **Clinical** window and navigate to the **My Health Record** icon. Click on the icon, then select the **My Health Record** tab.

STEP 2:

Click **View Document List** to refresh the list. Then double-click to open **Immunisation Consolidated View**.

Details of a patient's immunisations as recorded in the **Australian Immunisation Register (AIR)** will be displayed here.

Information will include the date of vaccination, dose number, brand administered and disease/indication.

Next immunisation/s due will display if the patient is due for a vaccination.

If there is additional information recorded in the AIR, this is displayed in a **Notice/s** section. This may include details about immunisation exemptions.

A National Immunisation Program (NIP) Status may also display for patients receiving immunisations under the program with corresponding text to confirm if the patient is up to date with recommended vaccines.

STEP 4:

For more information, click on the **Immunisations** tab to access available immunisation information recorded in AIR and held in any shared health summaries or event summaries in a patient's My Health Record.

You can click on any hyperlinks within the immunisations list to view the original source document.

From this view you can also access the most recent **shared health summary** and **event summary** that contain immunisation information.
