

Uploading a Shared Health Summary

Note:

- a) These steps assume that your software is connected to the My Health Record system, the patient's Individual Healthcare Identifier (IHI) has been validated in your system, and the patient has a My Health Record.
- b) Before you begin, ensure that the patient's clinical information in their local medical record is up to date.

1. Select the **MyHealthRecord** tab to gain access to the patient's My Health Record.

2. In the **My Health Record View** tab, select **Create Clinical Document** (bottom-left corner).

3. In the **e-Health** tab, double-click on **CDA Shared Health Summary** or highlight it and select **OK** (centre-screen).

4. The Shared Health Summary will auto-populate with information from the patient's local medical record. Tick/untick the items to include/not include in the Shared Health Summary, then select the **Send to My Health Record** icon (top-left corner).

Shared Health Summary
