

# Accessing Immunisation Information

*Note: These steps assume that your software is connected to the My Health Record system, the patient has a My Health Record and their individual healthcare identifier (IHI) has been validated in your system*

## STEP 1:

To access the patient's My Health Record, click on the **My Health Record** icon.

## STEP 2:

A **My Health Record Access** pop-up will appear. Select **General Access**, then click **Gain Access**.

Note: If the patient restricted access to their record and has provided you with an access code, then select the "Restricted Document Access" option. Enter the code and click **Gain Access**.

## STEP 3:

Select the **Document list** tab. The **Immunisation Consolidated View** appears within the document list.

Double-click to open and view the document.

Document Date	Service Date	Document	Organisation	Organisation Type
21/04/2021		Medicare Overview - past 12 months	My Health Record	Provision and administration of public health program
21/04/2021		Medicare Overview - all	My Health Record	Provision and administration of public health program
21/04/2021		Medicines View	My Health Record	Provision and administration of public health program
21/04/2021		Pathology Overview	My Health Record	Provision and administration of public health program
21/04/2021		Diagnostic Imaging Overview	My Health Record	Provision and administration of public health program
21/04/2021		Immunisation Consolidated View	My Health Record	Provision and administration of public health program
19/10/2020		Shared Health Summary	Yes Health Service/8	General Practice
15/10/2020		Shared Health Summary	Test Health Service 696	Intensive Care Specialist

## STEP 4:

The **Immunisation Consolidated View** will display with the **Australian Immunisation Register (AIR)** tab displayed by default. Details of a patient's immunisations as recorded in AIR will be displayed here.

Information will include the date of vaccination, dose number, brand administered and disease/indication.

**Next immunisation/s due** will display if the patient is due for a vaccination.

If there is additional information recorded in the AIR, this is displayed in a **Notice/s** section. This may include details about immunisation exemptions.

A National Immunisation Program (NIP) Status may also display for patients receiving immunisations under the program with corresponding text to confirm if the patient is up to date with recommended vaccines.

**Immunisations - sorted by date**  
**7 Dec 2022**  
**Caleb DERRINGTON** DoB: 15 Jun 1933 (89 years) SEX: Male IHI: 8003 6080 0004 5922

## STEP 5:

For additional information, click on the **Immunisations** tab to access available immunisation information recorded in the Australian Immunisation Register and held in any shared health summaries or event summaries in a patient's My Health Record.

You can click on any hyperlinks within the immunisations list to view the original source document.

From this view you can also access the most recent **shared health summary** and **event summary** that contain immunisation information.
