

Accessing the Medicines Information View

1. Open the **National Provider Portal** and search for your patient by entering their:

- Last name
- Date of birth
- Sex
- A unique numeric identifier, either their Medicare or DVA numbers, or their Individual Healthcare Identifier (IHI).

The screenshot shows the 'My Health Record Search' form. It includes fields for 'LAST NAME*' (containing 'Flynn'), 'DATE OF BIRTH*' (containing '26-Jan-1969'), and 'SEX*' (with 'Female' selected). There are also radio buttons for 'Male', 'Intersex', and 'Not Stated'. The 'IDENTIFIER*' section has radio buttons for 'IHI' (selected), 'Medicare', and 'DVA', with a text input field containing '8003608333453652'. A 'Search' button is highlighted in red.

2. On the patient's **Health Record Overview** page click on **Allergies & Adverse Reactions and Medicines Information**.

The screenshot shows the 'Health Record Overview' page for Helen G Flynn. A red box highlights the 'Allergies & Adverse Reactions and Medicines information' link in the top right corner. Below the overview, there is a section for 'Documents available on the My Health Record since the last Shared Health Summary'.

3. The **Available Medicines Information** view will display available medicines and allergy information held in a patient's My Health Record with the **Allergies and Adverse Reactions** tab displayed by default.

To view a patient's medicines information, click on the **Medicines Preview**.

The screenshot shows the 'Available Medicines Information' page. A red arrow points to the 'Allergies & Adverse Reactions' tab with the annotation 'Default selection'. Another red arrow points to the 'Medicines Preview' tab with the annotation 'Click on Medicines Preview to view medicines information'. Below the tabs is a table of medicines information.

SOURCE/AUTHOR	DATE	SUBSTANCE/AGENT	MANIFESTATION(S)
Patient-entered information	22-Jan-2020 (4 weeks ago)	Wheat flour	sick tummy
Event Summary Tes Health Service65	11-Oct-2017 (2 years ago)	Penicillin allergy	Urticaria
Event Summary Tes Health Service65	11-Oct-2017 (2 years ago)	Prozac allergy	Vomiting, Rash (moderate)

4. The medicines information is sorted by date by default. To sort the medicines by active ingredient click on **Medicine – Active Ingredient(s)**.

Note that you can click any hyperlinks within the list of medicines to view the original source document (e.g. Discharge Summary or Shared Health Summary).

The information in the **Medicines Information View** is gathered from:

- The patient's most recent (and up to two years') **Prescription and Dispense records** and other **PBS claims information**
- The patient's most recent **Shared Health Summary** and **Discharge Summary**
- Recent **Event Summaries, Specialist Letters** and **e-Referral notes** uploaded to the patient's record since their latest shared health summary, and
- The patient's **Personal Health Summary** that may include any allergies or adverse reactions and other key information.

If available, a link to the **Pharmacist Shared Medicines List** will also be provided in the Medicines Information View.
