

Accessing Immunisation Information

Note: These steps assume that your software is connected to the My Health Record system, the patient has a My Health Record and their individual healthcare identifier (IHI) has been validated in your system

<p>STEP 1:</p> <p>To access the patient's My Health Record, select the My Health Record icon above the Summary Views panel.</p>	
<p>STEP 2:</p> <p>The My Health Record Documents screen will display with the Clinical Documents tab selected by default. Click the Refresh button to show the list of documents in the patient's My Health Record (subject to any filters that are set).</p>	
<p>STEP 3:</p> <p>Click on the Immunisation Consolidated View to expand the list, then double-click to view. The document details will display in the panel below.</p> <p>Click the View Document button for a full screen view of the Immunisations document.</p>	
<p>STEP 4:</p> <p>The Immunisation Consolidated View will display with the Australian Immunisation Register (AIR) tab displayed by default.</p>	

Details of a patient's immunisation status including details of next immunisation(s) will also be displayed if recorded in AIR.

The COVID-19 Immunisation Status field displays as:

- 'This individual has **not** received all required COVID-19 vaccines' if someone has had only one vaccine; or
- 'This individual has received all required COVID-19 vaccines.'

If no COVID-19 vaccines have been received, the status isn't displayed.

If there is additional information recorded in the AIR, this is displayed in a **Notices** section. This may include details about immunisation exemptions or participation in vaccine trials.

National Immunisation Program (NIP) status:		up to date
COVID-19 Immunisation Status:		not up to date
Next immunisation/s due		Date due
Comirnaty		02 Apr 2021
Notice/s		

STEP 5:

Click on the **Immunisations** tab to access available immunisation information recorded in the Australian Immunisation Register and held in any shared health summaries or event summaries in a patient's My Health Record.

You can click on any hyperlinks within the immunisations list to view the original source document.

From this view you can also access the most recent **shared health summary** and **event summary** that contain immunisation information.

Australian Immunisation Register
Displays all the immunisation information recorded in the Australian immunisation register

Immunisations
All the immunisations recorded in both the Australian immunisation register and this My Health Record
